# Welcome

## Experience

Established in 1875, Nicholls & Clarke has pedigree that has been developed over many years. Through great heritage, we have gained a depth of knowledge and invaluable experience in the manufacturing and supplying of Phlexicare products to the construction market. We have experience across many industries with a huge portfolio of products suited to all project environments.

## Warranties

N&C Phlexicare products are manufactured to such high and exacting standards enabling us to offer a fantastic warranty on all our products.

## Environment

As an ISO14001 company, sustainability is a core part of our company agenda. As well as various carbon offsetting programmes in place, we invest a great deal in manufacturing and developing solutions dedicated to reducing our carbon footprint, and in turn increasing our customers' green credentials.

## British Manufacture

Our three state of the art U.K manufacturing facilities comply with ISO 9001 and ISO 14001, utilise the latest manufacturing technologies and apply stringent quality control checks during every part of the manufacturing process. Only the highest quality raw materials and packaging are used, ensuring the finished product meets our exacting standards.

## Customer Care

We aim to provide you with an outstanding level of customer service that will help to further enhance the service you offer to your clients. We monitor our performance levels and strive to achieve 100% client satisfaction. We believe that open channels of communication with our customers, coupled with their feedback are a sure way of further imposing our customers buying experience.

## International

N&C Phlexicare products are used in over 70 countries throughout the world in some of the most demanding commercial situations. This worldwide experience has furthered the development of some of the latest technologies we now use in the U.K.

## Product Quality

All our products are tried and tested prior to being introduced into the marketplace. All N&C Phlexicare products exceed the requirements or the relevant BS/EN Standards, offering specification clients and contracting customers the confidence in our product quality.

## 24 Hour Nationwide Delivery

N&C Phlexicare are unique in being able to offer nationwide, next day delivery, even when you order up to 5pm the day before<sup>1</sup> and there is no minimum order requirement. N&C Phlexicare operates from 17 branches nationwide so can offer localised delivery, or with thousands of product lines in stock, you also have the option to collect.

## Trade Associations & Technical Committees

N&C Phlexicare has been heavily involved in the creation of British & European Standards for decades. We have chaired the TTA Wetroom Technical Committee. We continue to push for stringent policing of the industry which would stop manufacturers falsely claiming specific European standards on packaging. Our philosophy has always been to drive up quality and standards whilst remaining highly competitive.

## Disability Rights UK

## Technical Service

Our team of Phlexicare specialists are able to offer a full technical specification service and are available to attend any site address throughout the U.K. A technical written specification is available on request. We offer CAD drawings for easier

## Independent living, **inclusive** design

N&C Phlexicare are pioneering, British manufacturers and distributors of showering, daily living, access, wall & floor and kitchen solutions within the healthcare construction market. We design, manufacture and distribute a full range of inclusive solutions with users, carers and installers in mind.

Our products are inspirational by design, functional by nature and produced using high quality materials. Our passion is to enable freedom and independence for users with different levels of abilities, within care home or residential environments.

N&C Phlexicare invented many of the products taken for granted today, such as the raised height w.c pan, low entry shower tray and half height shower doors. Our commitment to research and development has led to the creation of many unique products which are specified and used throughout the U.K and exported worldwide.

One of Phlexicare's key core values is 'attractive, inclusive design' claimed by many but achieved by few. To that end, we work very closely with charities and organisations such as 'Disability Rights U.K', 'The Centre for the Accessible Environment', Occupational Therapists and disabled users to ensure that our products achieve solutions for all, users and the people that care for them.

## Kitchens for all...

N&C Phlexicare believe that every kitchen should be inclusive in design to suit all user needs and abilities, with an equal emphasis on function, style and affordability. Our experienced, expert team are fully equipped to carry out a free comprehensive assessment and site survey to ensure the adapted kitchen is safe, functional and suited to all users within the place of care.

Many specifications require a kitchen to be adapted rather than replaced, possibly due to budgetary restraints or simply that there are only one or two items that need changing.

The simple replacement of the sink and/or hob with a manual or electric rise and fall worktop gives far more flexibility and access for users with physical impairments. Our Fully Adapted Kitchens are designed for disabled users that require a high degree of specialist features and individuality in style.

- Bespoke design for individual needs
- Over 30 years experience
- Inclusive design for multi-users
- Easy to use appliances
- Height adjustable worktops and units
- Expert assessment and site surveys

# Creating a home with independence

## Aerolight - Xtra

Folds for compact storage and provides a full width anti-slip surface with excellent grip.

- Ideal for building access
- 7 lengths sizes
- Contrasting colour edge strip
- Full width anti-slip excellent grip

## Adapting the bathroom to suit your clients' needs

At N&C Phlexicare, we are specialists in the manufacturer and supply of showering products. We give you a wide choice so that you can choose the type of shower you want.

### Level Access Showering (shower tray)

Where the shower tray is level with the floor, for a seamless transition from floor to shower. It is the perfect choice for an aesthetically attractive appearance, with the benefit of no steps or barriers.

### Level Access Showering (wet room)

Where the shower deck is not visible, the shower area is usually covered in tiles or vinyl for an attractive, consistent looking bathroom. A popular choice for most!

### Low Step Showering

Low profile shower trays can be fitted straight onto your existing floor, as an easily accessible showering option.

### Aqua Magic Bath Replacement Cubicle

Our innovative Aqua Magic bath replacement cubicle is an attractive, leak free, quick installation product with a integrated support rail, shower seat, anti-scald shower system and anti-slip shower tray for the ultimate in performance and safety.

Level Access showering using a flush fit shower tray such as our Universal Shower Tray, Trimline or Nova Profile

Level Access Showering in a wetroom using our Premier Shower Deck or Vinyl form

Low Step Showering can be achieved using our Quick Fit, Nova Low Profile or Easy Fit or Trimline

♥ *Wet rooms and level access showering direct from the manufacturer*

## Creative

Our range of Creative wet room screens highlight the epitome of inclusive design in the bathroom. The polished chrome and square edge aesthetic allows a combination of functionality with modern design. The configuration options are endless and include a fixed side panel and assistance pole making Creative a highly versatile option.

## Freedom Two

This minimalist shower screen and integrated assistance pole is elegant, unobtrusive and aids in safety for users within the shower area. The floor to ceiling pole is 1900mm with a 1000mm extension piece that can be cut to length. The 1200mm return to wall fitting is also provided as an alternative .

## Transform

In day to day operation, the bi-fold door would fold inwards to accommodate a small bathroom. However, should a fall or accident occur, the quick pivot operation of the shower door will act as an emergency release feature to prevent harm from full contact with a glass door. A low threshold door, with a square edge chrome finish and anti-limescale treatment supplied as standard, makes transform the ideal choice for elegant, safe showering.

## Fluidity

The Fluidity Sliding door shower system is an elegant looking, contemporary shower screen system that features a seamless soft close, sliding door. Fluidity encompasses all the features and benefits of a traditional shower enclosure but without a floor channel, thus allowing barrier free entry into the shower area. Its unique soft close door system allows the gentlest of touches in order to move the door when opening and closing. Fluidity is a versatile range that enables a variety of configurations to be created to better suit the users' requirements.

## Freespace Two

This new generation shower screen has been created and designed with the whole family in mind. The ideal showering solution for those who can shower themselves and those who may require assistance. Simple and easy to both install and operate, it is elegant and practical and allows the whole shower area to be opened up when not in use. This is an ideal solution for a multi-user situation where it is important to have inclusiveness and aesthetic appeal.

## *The easy to use, anti-scald, tactile range of showers*

At N&C Phlexicare, we offer the most comprehensive range of both electric and thermostatic mixer showers with safety in mind. Hot water temperature is controlled and stabilised to avoid the potential for scalding. Thermostatic temperature stability, easy use controls, colour contrasted covers, tactile raised areas and extended riser kits are some of the extra features provided in our electric shower offer. Whilst manufacturing our own dedicated healthcare mixer showers, we also work closely with brand leaders, such as Triton, Mira and Redring to provide our customers with maximum choice.

# Attractive, Multi-User Care System

The Pressalit Care Plus solution caters for the needs of all users with up-to-the minute design and ease of use. The entire concept of an integrated collection of bathroom and W.C. accessories and facilities revolves around the use and installation of the Pressalit Care PLUS wall track. With both horizontal and vertical adjustment options, Pressalit Care Plus is a complete bathroom system that makes it possible to plan, furnish and alter every single bathroom to meet requirements as they change.

# Choose the right bathroom products

We offer a vast selection of toilets and basins to suit all abilities and adaptations. We offer both lever and push button operated toilets, raised height models with extended projection to aid and assist in wheelchair transfer, as well as standard height suites to match our raised height products. Our collection of quality wash basins are available in a variety of mounting options, sizes and styles.

Wall Hung

Enquire about our Geberit AquaClean, shower toilet system. It is perfect if you require assistance and wish to maintain independence and privacy in the bathroom. The shower toilet combines all the functions of a conventional W.C. and bidet with the comfort of warm-air drying.

## Raised Height Toilets

Our raised height toilets are perfect for providing additional support to users with restricted mobility or weak legs and back. Raised height toilets enables users to easily transfer sideways from a wheelchair to a toilet

450mm

### Did you know?

N&C Phlexicare invented many of the products taken for granted today, such as the raised height W.C pan, low entry shower tray and half height shower doors. Our commitment to research and development has led to the creation of many unique products which are used throughout the U.K and worldwide.

## Easy Access Wash Basins

At N&C Phlexicare, we offer a variety of wash basins to suit your specific requirements, such as our wall fixed models to allow ease of access for wheelchair users or an easy to use, moveable swing basin. The majority of our washbasins, can also be mounted on adjustable height basin assemblies for multi user environments.

# Add the finishing touches with N&C bathroom necessities

Important features of a bathroom are often overlooked. A shower seat, whether placed in the shower area or in the shower room itself is a key element for your comfort and safety. Our shower seat range allows a choice of wall mounted and height adjustable seats that can be fixed or folded back. Various sizes and styles allow a traditional or contemporary look to be achieved and complement the rest of the bathroom furniture.
